One of the outstanding mysteries of the twentieth century, and one with huge political resonance, is the death of Dag Hammarskjold and his UN team in a plane crash in central Africa in 1961. Just minutes after midnight, his aircraft plunged into thick forest in the British colony of Northern Rhodesia (Zambia), abruptly ending his mission to bring peace to the Congo. Across the world, many suspected sabotage, accusing the multi-nationals and the governments of Britain, Belgium, the USA and South Africa of involvement in the disaster. These suspicions have never gone away. British High Commissioner Lord Alport was waiting at the airport when the aircraft crashed nearby. He bizarrely insisted

to the airport management that Hammarskjold had flown elsewhere - even though his aircraft was reported overhead. This postponed a search for so long that the wreckage of the plane was not found for fifteen hours. White mercenaries were at the airport that night too, including the South African pilot Jerry Puren, whose bombing of Congolese villages led, in his own words, to 'flaming huts ...destruction and death'. These soldiers of fortune were backed by Sir Roy Welensky, Prime Minister of the Rhodesian Federation, who was ready to stop at nothing to maintain white rule and thought the United Nations was synonymous with the Nazis. The Rhodesian government conducted an official inquiry, which blamed pilot error. But as this book will show, it was a massive cover-up that suppressed and dismissed a mass of crucial evidence, especially that of African eye-witnesses. A subsequent UN inquiry was unable to rule out foul play - but had no access to the evidence to show how and why. Now, for the first time, this story can be told. Who Killed Hammarskjold follows the author on her intriguing and often frightening journey of research to Zambia, South Africa, the USA, Sweden, Norway, Britain, France and Belgium, where she unearthed a mass of new and hitherto secret documentary and photographic evidence. At the heart of this book is Hammarskjold himself - a courageous and complex idealist, who sought to shield the newly-independent nations of the world from the predatory instincts of the Great Powers. It reveals that the conflict in the Congo was driven not so much by internal divisions, as by the Cold War and by the West's determination to keep real power from the hands of the post-colonial governments of Africa. It shows, too, that the British settlers of Rhodesia would maintain white minority rule at all costs.

After a lifetime's close observation of the continent, one of the world's finest Africa correspondents has penned a landmark book on life and death in modern Africa. It takes a guide as observant, experienced, and patient as Richard Dowden to reveal its truths. Dowden combines a novelist's gift for atmosphere with the scholar's grasp of historical change as he spins tales of cults and commerce in Senegal and traditional spirituality in Sierra Leone; analyzes the impact of oil and the internet on Nigeria and aid on Sudan; and examines what has gone so badly wrong in Zimbabwe, Rwanda, Burundi, and the Congo. Dowden's master work is an attempt to explain why Africa is the way it is, and enables its readers to see and understand this miraculous continent as a place of inspiration and tremendous humanity.

Mitch Albom creates his most unforgettable fictional character—Frankie Presto, the greatest guitarist to ever walk the earth—in this magical novel about the bands we join in life and the power of talent to change our lives. In his most stunning novel yet, the voice of Music narrates the tale of its most beloved disciple, young Frankie Presto, a war orphan raised by a blind music teacher in a small Spanish town. At nine years old, Frankie is sent to America in the bottom of a boat. His only possession is an old guitar and six precious strings. But Frankie's talent is touched by the gods, and his amazing journey weaves him through the musical landscape of the 20th century, from classical to jazz to rock and roll, with his stunning talent affecting numerous stars along the way, including Hank Williams, Elvis Presley, Carole King, Wynton Marsalis and even KISS. Frankie becomes a pop star himself. He makes records. He is adored. But his gift is also his burden, as he realizes, through his music, he can actually affect people's futures—with one string turning blue whenever a life is altered. At the height of his popularity, Frankie Presto vanishes. His legend grows. Only decades later, does he reappear—just before his spectacular death—to change one last life. With its Forest Gump-like romp through the music

“Bennett’s tone and style recalls James Baldwin and Jacqueline Woodson, but it’s especially reminiscent of Toni Morrison’s 1970 debut novel, *The Bluest Eye*.” —Kiley Reid, *Wall Street Journal*

“A story of absolute, universal timelessness ... For any era, it's an accomplished, affecting novel. For this moment, it's piercing, subtly wending its way toward questions about who we are and who we want to be...” – *Entertainment Weekly*

From *The New York Times*-bestselling author of *The Mothers*, a stunning new novel about twin sisters, inseparable as children, who ultimately choose to live in two very different worlds, one black and one white. The Vignes twin sisters will always be identical. But after growing up together in a small, southern black community and running away at age sixteen, it's not just the shape of their daily lives that is different as adults, it's everything: their families, their communities, their racial identities. Many years later, one sister lives with her black daughter in the same southern town she once tried to escape. The other secretly passes for white, and her white husband knows nothing of her past. Still, even separated by so many miles and just as many lies, the fates of the twins remain intertwined. What will happen to the next generation, when their own daughters' storylines intersect? Weaving together multiple strands and generations of this family, from the Deep South to California, from the 1950s to the 1990s,

Brit Bennett produces a story that is at once a riveting, emotional family story and a brilliant exploration of the American history of passing. Looking well beyond issues of race, *The Vanishing Half* considers the lasting influence of the past as it shapes a person's decisions, desires, and expectations, and explores some of the multiple reasons and realms in which people sometimes feel pulled to live as something other than their origins. As with her New York Times-bestselling debut *The Mothers*, Brit Bennett offers an engrossing page-turner about family and relationships that is immersive and provocative, compassionate and wise.

“Fascinating. Doidge’s book is a remarkable and hopeful portrait of the endless adaptability of the human brain.”—Oliver Sacks, MD, author of *The Man Who Mistook His Wife for a Hat*

What is neuroplasticity? Is it possible to change your brain? Norman Doidge’s inspiring guide to the new brain science explains all of this and more

An astonishing new science called neuroplasticity is overthrowing the centuries-old notion that the human brain is immutable, and proving that it is, in fact, possible to change your brain. Psychoanalyst, Norman Doidge, M.D., traveled the country to meet both the brilliant scientists championing neuroplasticity, its healing powers, and the people whose lives they’ve transformed—people whose mental limitations, brain damage or brain trauma were seen as unalterable. We see a woman born with half a brain that rewired itself to work as a whole, blind people who learn to see, learning disorders cured, IQs raised, aging brains rejuvenated, stroke patients learning to speak, children with cerebral palsy learning to move with more grace, depression and anxiety disorders successfully treated, and lifelong character traits changed. Using these marvelous stories to probe mysteries of the body, emotion, love, sex, culture, and education, Dr. Doidge has written an immensely moving, inspiring book that will permanently alter

A monumental, genre-defying novel that David Mitchell calls "Michel Faber's second masterpiece," *The Book of Strange New Things* is a masterwork from a writer in full command of his many talents. It begins with Peter, a devoted man of faith, as he is called to the mission of a lifetime, one that takes him galaxies away from his wife, Bea. Peter becomes immersed in the mysteries of an astonishing new environment, overseen by an enigmatic corporation known only as USIC. His work introduces him to a seemingly friendly native population struggling with a dangerous illness and hungry for Peter's teachings—his Bible is their "book of strange new things." But Peter is rattled when Bea's letters from home become increasingly desperate: typhoons and earthquakes are devastating whole countries, and governments are crumbling. Bea's faith, once the guiding light of their lives, begins to falter. Suddenly, a separation measured by an otherworldly distance, and defined both by one newly discovered world and another in a state of collapse, is threatened by an ever-widening gulf that is much less quantifiable. While Peter is reconciling the needs of his congregation with the desires of his strange employer, Bea is struggling for survival. Their trials lay bare a profound meditation on faith, love tested beyond endurance, and our responsibility to those closest to us. Marked by the same bravura storytelling and precise language that made *The Crimson Petal* and *the White* such an international success, *The Book of Strange New Things* is extraordinary, mesmerizing, and replete with emotional

complexity and genuine pathos.

A compelling and comprehensive look at the life and art of Francis Bacon, one of the iconic painters of the twentieth century--from the Pulitzer Prize-winning authors of *de Kooning: An American Master*. This intimate study of the singularly private, darkly funny, eruptive man and his extraordinary art "is bejeweled with sensuous detail ... the iconoclastic charm of the artist keeps the pages turning" (*The Washington Post*). "A definitive life of Francis Bacon ... Stevens and Swan are vivid scene setters ... Francis Bacon does justice to the contradictions of both the man and the art." --*The Boston Globe*

Francis Bacon created an indelible image of mankind in modern times, and played an outsized role in both twentieth century art and life--from his public emergence with his legendary *Triptych 1944* (its images "so unrelievedly awful" that people fled the gallery), to his death in Madrid in 1992. Bacon was a witty free spirit and unabashed homosexual at a time when many others remained closeted, and his exploits were as unforgettable as his images. He moved among the worlds of London's Soho and East End, the literary salons of London and Paris, and the homosexual life of Tangier. Through hundreds of interviews, and extensive new research, the authors probe Bacon's childhood in Ireland (he earned his father's lasting disdain because his asthma prevented him from hunting); his increasingly open homosexuality; his early design career--never before explored in detail; the formation of his vision; his early failure as an artist; his uneasy relationship with American abstract art; and his improbable late emergence onto the international stage as one of the great visionaries of the twentieth century. In all, Francis Bacon: *Revelations* gives us a more complete and nuanced--and more international--portrait than ever before of this singularly private, darkly funny, eruptive man and his equally eruptive,

extraordinary art. Bacon was not just an influential artist, he helped remake the twentieth-century figure.

NEW YORK TIMES BESTSELLER • The knockdown, drag-out, untold story of the other scandal that rocked Nixon’s White House, and reset the rules for crooked presidents to come—with new reporting that expands on Rachel Maddow’s Peabody Award–nominated podcast “Both a thriller and a history book, *Bag Man* is a triumph of storytelling.”—Preet Bharara, New York Times bestselling author of *Doing Justice* and host of the podcast *Stay Tuned with Preet* Is it possible for a sitting vice president to direct a vast criminal enterprise within the halls of the White House? To have one of the most brazen corruption scandals in American history play out while nobody’s paying attention? And for that scandal to be all but forgotten decades later? The year was 1973, and Spiro T. Agnew, the former governor of Maryland, was Richard Nixon’s second-in-command. Long on firebrand rhetoric and short on political experience, Agnew had carried out a bribery and extortion ring in office for years, when—at the height of Watergate—three young federal prosecutors discovered his crimes and launched a mission to take him down before it was too late, before Nixon’s impending downfall elevated Agnew to the presidency. The self-described “counterpuncher” vice president did everything he could to bury their investigation: dismissing it as a “witch hunt,” riling up his partisan base, making the press the enemy, and, with a crumbling circle of loyalists, scheming to obstruct justice in order to survive. In this blockbuster account, Rachel Maddow and Michael Yarvitz detail the investigation that exposed Agnew’s crimes, the attempts at a cover-up—which involved future president George H. W. Bush—and the backroom bargain that forced Agnew’s resignation but also spared him years in federal prison. Based on the award-winning hit podcast, *Bag Man* expands and deepens the story of Spiro

In the 1940s, the brightest minds of the United States and Nazi Germany raced to West Africa with a single mission: to secure the essential ingredient of the atomic bomb -- and to make sure nobody saw them doing it. Albert Einstein told President Franklin D. Roosevelt in 1939 that the world's only supply of uniquely high-quality uranium ore -- the key ingredient for bomb -- could be found in the Katanga province of the Belgian Congo at the Shinkolobwe Mine. Once the US Manhattan Project was committed to developing atomic weapons for the war against Germany and Japan, the rush to procure this uranium became a top priority -- one deemed "vital to the welfare of the United States." But covertly exporting it from Africa posed a major risk: the ore had to travel via a spy-infested Angolan port or 1,500

miles by rail through the Congo, and then be shipped by boats or Pan Am Clippers to safety in the United States. It could be poached or smuggled at any point on the orders of Nazi Germany. To combat that threat, the US Office of Strategic Services sent in a team of intrepid spies, led by Wilbur Owings "Dock" Hogue, to be America's eyes and ears and to protect its most precious and destructive cargo. Packed with newly discovered details from American and British archives, this is the gripping, true story of the unsung heroism of a handful of good men -- and one woman -- in colonial Africa who risked their lives in the fight against fascism and helped deny Hitler his atomic bomb.

In 1966 the Republic of Botswana came into existence, and this is the tale of how one family played a central role in the country's development. This biography focuses on the Khama family, and in particular, Seretse Khama: a statesman, chief, husband, and father. Dwelling on the last two aspects of this important figure, this account demonstrates how, in the face of great difficulties and opposition, Sereste and Ruth—a black man and a white woman—were united in a fruitful marriage that showed the world how people from different traditions might live happily. In many respects, their personal story, so movingly recounted here, mirrors the beliefs of the country itself, for Botswana has always stressed the importance of social harmony. The true story of a love which defied family, Apartheid, and empire - the inspiration for the major new feature film A United Kingdom, starring David Oyelowo and Rosamund Pike London, 1947. Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

"Racial murder and rebellion lie at the heart of this book. It focuses on South Africa's 'Rand Revolt' of 1922, when Johannesburg and its surrounding towns were wracked by industrial strife, racial violence and insurrection. White workers rose against their employers and the State, black people were hunted through the streets, and strikers launched an onslaught upon police and the army. Krikler recreates this world of intense conflict and analyses the sources and complex nature of its extreme passions. The book suggests novel ways of looking at racial identity and violence, and breaks new ground in other areas - for example, in its assessment of the impact of the First World War on labour movements, and in its exploration of the significance of female violence during the upheaval." "Written with a determination to explore deeper meanings, the book has wide implications for our understanding of race and class in South Africa and elsewhere. It also offers a most vivid portrayal of a rebellion - with all its cruelty, heroism, drama and pathos."--BOOK JACKET.

FINALIST FOR THE NATIONAL BOOK AWARD IN NONFICTION Solitary is the unforgettable life story of a man who served more than four decades in solitary confinement—in a 6-foot by 9-foot cell, 23 hours a day, in notorious Angola prison in Louisiana—all for a crime he did not commit. That Albert Woodfox survived was, in itself, a feat of extraordinary endurance against the violence and deprivation he faced daily. That he was able to emerge whole from his odyssey within America's prison and judicial systems is a triumph of the human spirit, and makes his book a clarion call to reform the inhumanity of solitary confinement in the U.S. and around the world. Arrested often as a teenager in New

Orleans, inspired behind bars in his early twenties to join the Black Panther Party because of its social commitment and code of living, Albert was serving a 50-year sentence in Angola for armed robbery when on April 17, 1972, a white guard was killed. Albert and another member of the Panthers were accused of the crime and immediately put in solitary confinement by the warden. Without a shred of actual evidence against them, their trial was a sham of justice that gave them life sentences in solitary. Decades passed before Albert gained a lawyer of consequence; even so, sixteen more years and multiple appeals were needed before he was finally released in February 2016. Remarkably self-aware that anger or bitterness would have destroyed him in solitary confinement, sustained by the shared solidarity of two fellow Panthers, Albert turned his anger into activism and resistance. The Angola 3, as they became known, resolved never to be broken by the grinding inhumanity and corruption that effectively held them for decades as political prisoners. He survived to give us *Solitary*, a chronicle of rare power and humanity that proves the better spirits of our nature can thrive against any odds.

In 1948, a young white English woman, Ruth Williams, made headline news all over the world. For she had met, fallen in love with, and married Seretse Khama, an African prince and heir to the chieftainship of a tribe of more than 100,000 people—the Bamangwato. At first, the marriage was no more welcome in Africa than in government circles in London. Within a year of their wedding, the young couple had provoked an astonishing series of events that had never been explained. The British government was determined to prevent Seretse taking his rightful place at the head of his tribe. The Bamangwato, to their credit, accepted the marriage and welcomed Ruth as their queen. Attlee's Labour government embarked on what appeared to be a vendetta against them,

robbing Seretse of his birthright and his people of their chief. In the process, Seretse and Ruth were forcibly separated while she awaited the birth of their first child. Now having access to Ministerial telegrams and Cabinet documents, the author can tell the full story. Includes photos provided by Lady Ruth Khama.

"Susan Williams reveals there was huge popular support for King Edward and that many ordinary people were happy for him to marry Wallis - even though Prime Minister Baldwin claimed that public opinion would never allow it. She shows how the king was rushed into abdicating, against the good advice of his loyal champion, Winston Churchill. We find out who fomented the crisis and why neither parliament nor the people were consulted. We discover, too, the continuing repercussions within the Royal Family of an event so momentous that it changed the face of the British monarchy."--BOOK JACKET.

This text aims to teach the reader how to assess her body type and then choose clothing. The process involves what the authors call an individual's design pattern. This pattern is made up of lines, shapes, proportions, body particulars, scale, colours and textures. How they fit together in harmony and how an individual infuses them with her innate creativity is what authors call 'style'.

Sir Seretse Khama, the first President of Botswana and heir apparent to the kingship of the Bangwato people, brought independence and great prosperity to his nation after colonial rule. To fall in love and marry a young, white English girl, Ruth Williams. Delving into newly released records, Susan Williams tells Seretse and Ruth's story - a shocking account of how the British Government conspired with apartheid South Africa to prevent the mixed-race royal couple returning home. But it is also an inspiring, triumphant tale of hope, courage and true love as with tenacity and great dignity Seretse and Ruth and the Bangwato people overcome prejudice in their fight for justice.

Liesel Meminger is a foster girl living outside of Munich, who scratches out a meager existence for herself by stealing when she encounters something she can't resist—books. With the help of her accordion-playing foster father, she learns to read and shares her stolen books with her neighbors during bombing raids as well as with the Jewish man hidden in her basement. In superbly crafted writing that burns with intensity, award-winning author Markus Zusak, author of *I Am the Messenger*, has given us one of the most enduring stories of our time. “The kind of book that can be life-

changing.” —The New York Times “Deserves a place on the same shelf with The Diary of a Young Girl by Anne Frank.” —USA Today DON'T MISS BRIDGE OF CLAY, MARKUS ZUSAK'S FIRST NOVEL SINCE THE BOOK THIEF.

A revelatory history of how postcolonial African Independence movements were systematically undermined by one nation above all: the US. In 1958 in Accra, Ghana, the Hands Off Africa conference brought together the leading figures of African independence in a public show of political strength and purpose. Led by the charismatic Kwame Nkrumah, who had just won Ghana's independence, his determined call for Pan-Africanism was heeded by young, idealistic leaders across the continent and by African Americans seeking civil rights at home. Yet, a moment that signified a new era of African freedom simultaneously marked a new era of foreign intervention and control. In *White Malice*, Susan Williams unearths the covert operations pursued by the CIA from Ghana to the Congo to the UN in an effort to frustrate and deny Africa's new generation of nationalist leaders. This dramatically upends the conventional belief that the African nations failed to establish effective, democratic states on their own accord. As the old European powers moved out, the US moved in. Drawing on original research, recently declassified documents, and told through an engaging narrative, Williams introduces readers to

idealistic African leaders and to the secret agents, ambassadors, and even presidents who deliberately worked against them, forever altering the future of a continent.

There are two kinds of families: the ones we are born into and the ones we create. Walk has never left the coastal California town where he grew up. He may have become the chief of police, but he's still trying to heal the old wound of having given the testimony that sent his best friend, Vincent King, to prison decades before. Now, thirty years later, Vincent is being released. Duchess is a thirteen-year-old self-proclaimed outlaw. Her mother, Star, grew up with Walk and Vincent. Walk is in overdrive trying to protect them, but Vincent and Star seem bent on sliding deeper into self-destruction. Star always burned bright, but recently that light has dimmed, leaving Duchess to parent not only her mother but her five-year-old brother. At school the other kids make fun of Duchess—her clothes are torn, her hair a mess. But let them throw their sticks, because she'll throw stones. Rules are for other people. She's just trying to survive and keep her family together. A fortysomething-year-old sheriff and a thirteen-year-old girl may not seem to have a lot in common. But they both have come to expect that people will disappoint you, loved ones will leave you, and if you open your heart it will be broken. So when trouble arrives with Vincent King, Walk and Duchess find

they will be unable to do anything but usher it in, arms wide closed. Chris Whitaker has written an extraordinary novel about people who deserve so much more than life serves them. At times devastating, with flashes of humor and hope throughout, it is ultimately an inspiring tale of how the human spirit prevails and how, in the end, love—in all its different guises—wins.

They hope this sacrifice will keep her from terrorizing their town. But the witch in the Forest, Xan, is kind. She shares her home with a wise Swamp Monster and a Perfectly Tiny Dragon. Xan rescues the children and delivers them to welcoming families on the other side of the forest, nourishing the babies with starlight on the journey. One year, Xan accidentally feeds a baby moonlight instead of starlight, filling the ordinary child with extraordinary magic. Xan decides she must raise this girl, whom she calls Luna, as her own. As Luna's
