

## How To Apply Makeup Professionally

"How To Apply Makeup Like A Professional" is another in the series of books on makeup from Lisa Patrick. Through her, readers have learned how to do basic makeup to get to work and to run about and do errands or even to go out at night. She takes things a bit further in this book and highlights certain tips and tricks that a person can use to have that professional look when they apply their makeup. Having the professional look involves a certain number of processes from the tools that are used to the makeup that is selected and how it is applied. The main thing to learn is that specific types of makeup will have a certain effect. It is therefore important to select carefully. The brushes and sponges also have to be selected carefully and all of this is expounded upon in the book. It serves as a great guide to help women look even better.

Applying makeup has always been one of those things every woman is expected to know. The real truth is that so many women have no idea how to put on makeup correctly and to actually make an improvement to the way they look. If you were one of the lucky ones, then your mother probably showed you a few things here and there. But to be honest, she probably also had no real training in this subject. Some of us had to pick up a few makeup tips here and there but never really had the opportunity to learn the right techniques. I am Anneke la Grange from the University of Makeup. In this book I take each aspect of makeup and start by discussing what we want to accomplish and how we're going to accomplish it. By knowing the techniques in this book you will open a new world of confidence for yourself. You're not only going to learn how to apply makeup correctly, you're going to learn how to apply it professionally. You can use this knowledge just for yourself or take it further and start mentoring your friends and family. Maybe a new career is waiting for you...a career in being a professional makeup artist. You will be able to make yourself absolutely beautiful and also turn others into supermodels.

This novel is a work of fiction. The main characters are pure inventions and imaginations of the author. It has no relations to anyone dead or alive as far as I know. The two countries and continent, which the novel is based on, are genuine United Kingdom, Nigeria and Africa. I lived in UK, while researching and writing this novel, so I relied on memories that were good, bad, ugly, travels, events, experiences from friends, families, neighbors, and many peoples accounts of natural, cultural, and social history of Africans and Nigerians in United Kingdom in the sixties through to today's UK. Such are the diversity and values of these sources to-me and other interested people who may be willing to know the facts underpinning the writing of this fiction. This work of fiction has a lot of raunchy, romantic and sexual scenes, which is based on experiences of young women, who arrived in UK and disapprovingly but, rather shockingly find out that UK is not exactly a county covered in milk and honey, but, rather it can be as daunting and has snapshots of vices as can be found in any other cosmopolitan town.
