A beautiful poetry collection chosen by the Poet Laureate, Carol Ann Duffy. Carol Ann Duffy, the Poet Laureate, has chosen her favourite poems for children for this stunning collection of classic and modern verse, exquisitely illustrated by multi-award-winning illustrator Emily Gravett.

A wonderfully exuberant yet poignant poetry collection from one of Britain's greatest children's poets Michael Rosen. Here are tales of childhood, from the horrors of being late for school, to making a raft, and going to a cafe, as well as poems to ponder - just think, how great would Satnav trousers be! Touching, light-hearted and funny, Michael's poems will delight readers young and old. Former Children's Laureate, Michael continuously promotes the need for children's poetry in our education system, and this collection, first published in 2010, has something for everyone.

From the bestselling author of *Blink* and *The Tipping Point*, Malcolm Gladwell's *Outliers: The Story of Success* overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who

we are - and that no one, not even a genius, ever makes it alone. Outliers will change the way you think about your own life story, and about what makes us all unique.

'Gladwell is not only a brilliant storyteller; he can see what those stories tell us, the lessons they contain' Guardian 'Malcolm Gladwell is a global phenomenon ... he has a genius for making everything he writes seem like an impossible adventure' Observer 'He is the best kind of writer - the kind who makes you feel like you're a genius, rather than he's a genius' The Times

When I was a boy, I had a favourite treat. It was when my mum made . . .

CHOCOLATE CAKE! Ohhh! I LOVED chocolate cake. Fantastically funny and full of silly noises, this is Michael Rosen's love letter to every child's favourite treat, chocolate cake. Brought to life as a picture book for the first time with brilliant and characterful illustrations by Kevin Waldron.

A vibrant collection of poems perfect to be performed by two or more voices! In this collection, Julia Donaldson has chosen poems with performance by children in mind, and in the notes section at the end of the book are her notes and ideas on performing them. Julia's passionate belief that performance can help children enjoy reading and grow in confidence is informed by her own experience both as a child and now, working with groups of children to bring stories, poems and songs to life. The poems range from classics by Edward Lear, W H Auden and

Eleanor Farjeon to contemporary work by Michael Rosen, John Agard and Clare Bevan. Illustrated throughout with exquisite, expressive lino-cuts, this is a book for teachers, parents, children: anyone who loves great poetry. This beautiful collection would also make a wonderful gift.

We Animals Would Like a Word With You takes a humorous look at the human condition through poetry written by our animal friends - with a little help from renowned poet, John Agard.

Early in the development of number theory, it was noticed that the ring of integers has many properties in common with the ring of polynomials over a finite field. The first part of this book illustrates this relationship by presenting analogues of various theorems. The later chapters probe the analogy between global function fields and algebraic number fields. Topics include the ABC-conjecture, Brumer-Stark conjecture, and Drinfeld modules.

The best collection of contemporary children's poems ever! Every anthology has one or two poems that seem to shout out: 'Hey! I'm the best. Read me again. Learn me by heart. Love me.' So here, for the first time, are all of those poems collected together - from the pens (and computer keyboards) of some of the finest poets in the land.

This book is a visually focused and clinically relevant volume detailing pearls and

practical points regarding acute life-threatening rashes. Each chapter covers life-threatening causes of rash or their significant mimics, including Steven Johnson Syndrome, Kawasaki Disease, and HIV. The authors discuss the classic presentation of rashes along with associated symptoms. Additionally, they examine atypical presentations of the rash and key physical exam findings to confirm or exclude the life-threatening diagnosis. The chapters are highly visual with multiple color photos as well as tables to aid the clinician in differentiating between other mimicking conditions and causes of rashes. Coverage continues beyond diagnosis to include management and potential complications. Each chapter concludes with clinical pearls or take-away points that clinicians can easily memorize for quick decision making. This is an ideal reference for all clinicians who encounter patients with rashes, particularly emergency medicine providers.

A national treasure's journey to the brink and back. 'Will I wake up?' 'There's a 50:50 chance.' Michael Rosen wasn't feeling well. Soon he was struggling to breathe, and then he was admitted to hospital, suffering from coronavirus as the nation teetered on the edge of a global pandemic. What followed was months on the wards: six weeks in an induced coma, and many more weeks of rehab and recovery as the NHS saved Michael's life, and then got him back on his feet.

Throughout Michael's stay in intensive care, a notebook lay at the end of his bed, where the nurses who cared for him wrote letters of hope and support.

Embarking on the long road to recovery, Michael was soon ready to start writing about his near-death experience. Combining stunning new prose poems by one of Britain's best loved poets and the moving coronavirus diaries of his nurses, doctors and wife Emma-Louise Williams, this is a beautiful book about love, life and the NHS. Featuring original illustrations by Chris Riddell, each page celebrates the power of community, the importance of kind gestures in dark times, and the indomitable spirits of the people who keep us well.

Balson explores the human cost of war, the mixed blessings of survival, and the enduring strength of family bonds. 1939: Eli Rosen lives with his wife Esther and their young son in the Polish town of Lublin, where his family owns a construction company. As a consequence of the Nazi occupation, Eli's company is Aryanized, appropriated and transferred to Maximilian Poleski—an unprincipled profiteer who peddles favors to Lublin's subjugated residents. An uneasy alliance is formed; Poleski will keep the Rosen family safe if Eli will manage the business. Will Poleski honor his promise or will their relationship end in betrayal and tragedy? 1946: Eli resides with his son in a displaced persons camp in Allied-occupied Germany hoping for a visa to America. His wife has been missing since the war. One man is sneaking around the camps selling illegal visas; might he know what has happened to her? 1965: Eli rents a room in Albany Park, Chicago. He is on a mission. With patience, cunning, and relentless focus, he navigates unfamiliar streets and dangerous political backrooms, searching for the truth. Powerful and emotional, Ronald H. extraordinary power and vividness, Michael Rosen tells the story of a life: his left-wing Jewish upbringing, with baffling childhood trips to Trafalgar Square, eastern Europe and hospital, followed by trainee days at the BBC under the watchful eyes of Mi5, breakdown of a marriage, development of a new relationship, and the joy of a new baby. And, in a core series of pieces, the central calamity of his life: the sudden death from meningitis of his eighteen-year-old son. 'Rather you than me' said one of the neighbours on hearing the news - a remark that Rosen records, as he does much else to do with the death, with a surprised, painful honesty which constantly brings the reader up short. Unflinching, totally lacking in mawkishness and self-pity, *Carrying the Elephant* is a triumph of imagination and curiosity.

How on Earth did we fix upon our twenty–six letters, what do they really mean, and how did we come to write them down in the first place? Michael Rosen takes you on an unforgettable adventure through the history of the alphabet in twenty–six vivid chapters, fizzing with personal anecdotes and fascinating facts. Starting with the mysterious Phoenicians and how sounds first came to be written down, he races on to show how nonsense poems work, pins down the strange story of OK, traces our five lost letters and tackles the tyranny of spelling, among many many other things. His heroes of the alphabet range from Edward Lear to Phyllis Pearsall (the inventor of the A–Z), and from the two scribes of Beowulf to rappers. Each chapter takes on a different subject – whether it's codes, umlauts or the writing of dictionaries. Rosen's enthusiasm for letters positively leaps off the page, whether it's the story of his life told through the typewriters he's owned or a chapter on jokes written in a string of gags and word games. This is the book for anyone who's ever wondered why Hawaiian only has a thirteen–letter

"The feeling was electric-energy humming through my body. I felt like blood was pouring into areas of my tissues that it had not been able to reach for some time. It was relieving and healing, subtler than the feeling from getting off on drugs, but it was detectable and lovely, and of course, there was no hangover, just a feeling of more ease than I could remember. I felt a warmth come over me similar to what I felt when I had done heroin, but far from the darkness of that insanity, this was pure light-a way through." - Tommy Rosen, on his first yoga experience

Most of us deal with addiction in some form. While you may not be a fall-down drunk, anorexic, or a gambling addict, you likely struggle with addiction in other ways. Workaholism, overeating, and compulsively engaging with technology like video games, texting, and Facebook are also highly common examples. And if you don't suffer from addiction, chances are you know someone who does. Through more than 20 years of recovery and in working professionally with others, Tommy Rosen has uncovered core elements of recovery and healing, what he refers to as Recovery 2.0. In the book, he shares his own past struggles with addiction, and powerful, tested tools for breaking free from the obstacles that stand in the way of a holistic and lasting recovery. Building off the key tenets of the 12-Step program, he has developed an innovative approach that includes

Former Children's Laureates Michael Rosen and Sir Quentin Blake join forces for a personal and uniquely affecting collection of poems about migration. "What you leave behind Won't leave your mind. But home is where you find it. Home is where you find it." Michael Rosen and Sir Quentin Blake join forces for a landmark new collection, focusing on migration and displacement. Michael's poems are divided into four: in the first series, he draws on his childhood as part of a first-generation Polish family living in London; in the second, on his perception of the War as a young boy; in the third, on his "missing" relatives and the Holocaust; and in the fourth, and final, on global experiences of migration. By turns charming, shocking and heart-breaking, this is an anthology with a story to tell and a powerful point to make: "You can only do something

Historical stone arch bridges are still a major part of the infrastructure in many countries. Although this type of bridge has proven to be an efficient construction type, it often poses the problem of insufficient numerical models of the load bearing behavior.

Therefore the book introduces methods to adapt life loads and introduces different types of numerical models of the load resistance respectively. The book continues with the introduction of specific damages and strengthening techniques. The book particularly focuses on the probabilistic safety assessment of historical arch bridges, for which often only limited material and structural data is available.
