

Starving In Search Of Me A Coming Of Age Story Of Overcoming An Eating Disorder And Finding Self Acceptance

"A delicious memoir that takes us from Buenos Aires to New York to Berlin as the author, driven by wanderlust and an unrelenting appetite, finds purpose, passion, and unexpected flavor. After putting her dream of opening her own restaurant on hold, Layne Mosler moves to Buenos Aires to write about food. But she is also in search of that elusive "something" that could give shape to her life. One afternoon, fleeing a tango club following a terrible turn on the dance floor, she impulsively asks her taxista to take her to his favorite restaurant. Soon she is savoring one of the best steaks of her life and, in the weeks that follow, repeating the experiment with equally delectable results. So begins the gustatory adventure that becomes the basis for Mosler's cult blog, "Taxi Gourmet." It eventually takes her to New York City, where she continues her food quests, hailing cabs and striking up conversations from the back seat, until she meets a pair of extraordinary lady cab drivers who convince her to become a taxi driver herself. Between humbling (and hilarious) episodes behind the wheel, Mosler reads about the taxi drivers in Berlin, who allegedly know as much about Nietzsche as they do about sausage. Intrigued, she travels to the German capital, where she develops a passion for the city, its restlessness, its changing flavors, and a certain fellow cab driver who shares her love of the road. With her vivid descriptions of places and people and food, Mosler has given us a beguiling book that speaks to the beauty of chance encounters and the pleasures of not always knowing your destination."--Goodreads.com.

An editor at This American Life reveals the searing story of the secret binge-eating that dominated her adolescence and shapes her still. "Her tale of compulsion and healing is candid and powerful."—People NAMED ONE OF THE BEST BOOKS OF THE YEAR BY MARIE CLAIRE For almost thirty years, Susan Burton hid her obsession with food and the secret life of compulsive eating and starving that dominated her adolescence. This is the relentlessly honest, fiercely intelligent story of living with both anorexia and binge-eating disorder, moving past her shame, and learning to tell her secret. When Burton was thirteen, her stable life in suburban Michigan was turned upside down by her parents' abrupt divorce, and she moved to Colorado with her mother and sister. She seized on this move west as an adventure and an opportunity to reinvent herself from middle-school nerd to popular teenage girl. But in the fallout from her parents' breakup, an inherited fixation on thinness went from "peculiarity to pathology." Susan entered into a painful cycle of anorexia and binge eating that formed a subterranean layer to her sunny life. She went from success to success—she went to Yale, scored a dream job at a magazine right out of college, and married her college boyfriend. But in college the compulsive eating got worse—she'd binge, swear it would be the last time, and then, hours later, do it again—and after she graduated she descended into anorexia, her attempt to "quit food." Binge eating is more prevalent than anorexia or bulimia, but there is less research and little storytelling to help us understand it. In tart, soulful prose Susan Burton strikes a blow for the importance of this kind of narrative and tells an exhilarating story of longing, compulsion and hard-earned self-revelation.

Are the meds no longer working? Together, they set out to find the only thing that will quell their hunger: real food. It's a journey that will change everything Thalia thought she knew. But can a "privy" like her ever truly be part of a revolution?

"If you enjoyed An American Marriage by Tayari Jones, read The Care and Feeding of Ravenously Hungry Girls...an absorbing commentary on love, family and forgiveness."--The Washington Post "A fast-paced, intriguing story...the novel's real achievement is its uncommon perceptiveness on the origins and variations of addiction."--The New York Times Book Review One of the most anticipated reads of 2019 from Vogue, Vanity Fair, Washington Post, BuzzFeed, Essence, Bustle, HelloGiggles and Cosmo! "The Mothers meets An American Marriage" (HelloGiggles) in this dazzling debut novel about mothers and daughters, identity and family, and how the relationships that sustain you can also be the ones that consume you. The Butler family has had their share of trials--as sisters Althea, Viola, and Lillian can attest--but nothing prepared them for the literal trial that will upend their lives. Althea, the eldest sister and substitute matriarch, is a force to be reckoned with and her younger sisters have alternately appreciated and chafed at her strong will. They are as stunned as the rest of the small community when she and her husband, Proctor, are arrested, and in a heartbeat the family goes from one of the most respected in town to utter disgrace. The worst part is, not even her sisters are sure exactly what happened. As Althea awaits her fate, Lillian and Viola must come together in the house they grew up in to care for their sister's teenage daughters. What unfolds is a stunning portrait of the heart and core of an American family in a story that is as page-turning as it is important.

Patients with eating disorders frequently feel that they aren't "sick enough" to merit treatment, despite medical problems that are both measurable and unmeasurable. They may struggle to accept rest, nutrition, and a team to help them move towards recovery. Sick Enough offers patients, their families, and clinicians a comprehensive, accessible review of the medical issues that arise from eating disorders by bringing relatable case presentations and a scientifically sound, engaging style to the topic. Using metaphor and patient-centered language, Dr. Gaudiani aims to improve medical diagnosis and treatment, motivate recovery, and validate the lived experiences of individuals of all body shapes and sizes, while firmly rejecting dieting culture.

An informative and dramatic story about one woman and her lifelong battle with eating disorders.

A special 75th anniversary edition of Richard Wright's powerful and unforgettable memoir, with a new foreword by John Edgar Wideman and an afterword by Malcolm Wright, the author's grandson. When it exploded onto the literary scene in 1945, *Black Boy* was both praised and condemned. Orville Prescott of the *New York Times* wrote that "if enough such books are written, if enough millions of people read them maybe, someday, in the fullness of time, there will be a greater understanding and a more true democracy." Yet from 1975 to 1978, *Black Boy* was banned in schools throughout the United States for "obscenity" and "instigating hatred between the races." Wright's once controversial, now celebrated autobiography measures the raw brutality of the Jim Crow South against the sheer desperate will it took to survive as a Black boy. Enduring poverty, hunger, fear, abuse, and hatred while growing up in the woods of Mississippi, Wright lied, stole, and raged at those around him—whites indifferent, pitying, or cruel and Blacks resentful of anyone trying to rise above their circumstances. Desperate for a different way of life, he may his way north, eventually arriving in Chicago, where he forged a new path and began his career as a writer. At the end of *Black Boy*, Wright sits poised with pencil in hand, determined to "hurl words into this darkness and wait for an echo." Seventy-five year later, his words continue to reverberate. "To read *Black Boy* is to stare into the heart of darkness," John Edgar Wideman writes in his foreword. "Not the dark heart Conrad searched for in Congo jungles but the beating heart I bear." One of the great American memoirs, Wright's account is a poignant record of struggle and endurance—a seminal literary work that illuminates our own time.

The *Washington Post* called her "A DIY furniture maven" when she built her small, women-owned business. However, the world was much bleaker as a young girl growing up emotionally and physically starving. Like Tara Westover in her memoir, *Educated*, Christen was also caught in the confines of her upbringing. She grew up under the rule of an emotionally absent and critical mother, attended a cult-like evangelical church that practiced exorcisms and went to a school that publicly punished kids with paddling, duct-taping their mouths closed and tying children to their desks with rope. *Starving* is a memoir by Blue Egg Brown Nest founder, Christen Bensten. You may know some of Christen's story through her popular blog, Blue Egg Brown Nest, but you don't know all of it. Christen shares her painful story of growing up in a constant state of fear, managing her anxiety and depression on her own. As a fearful and quiet child, Christen did not have the tools to fight back against the people that tried to keep her small and she spent many years locked in her bedroom trying to manage her debilitating depression on her own. Her anxiety turned into daily purging at age ten and kept her from expanding into the world. It wasn't until the birth of her first child that she was able mount the courage she needed to set up healthy boundaries, heal from the past and move into her bright future. She has been published in *The Washington Post*, *Cottage Living Magazine*, *Arlington Magazine*, *Romantic Homes Magazine*, *freshstyle Magazine* and several other publications including the book *Southern Style*. She has shared her YouTube Tutorials to millions of people on her Blue Egg Brown Nest Channel. Christen is a mom of three, a writer, painter, avid reader and Jesus-lover. She also fosters loads of homeless kitties. Her audience is anyone seeking to move away from the prison of the past and toward mental and physical well-being. "Why does every one of my friends have an eating disorder, or, at the very least, a screwed-up approach to food and fitness?" writes journalist Courtney E. Martin. The new world culture of eating disorders and food and body issues affects virtually all -- not just a rare few -- of today's young women. They are your sisters, friends, and colleagues -- a generation told that they could "be anything," who instead heard that they had to "be everything." Driven by a relentless quest for perfection, they are on the verge of a breakdown, exhausted from overexercising, bingeing, purging, and depriving themselves to attain an unhealthy ideal. An emerging new talent, Courtney E. Martin is the voice of a young generation so obsessed with being thin that their consciousness is always focused inward, to the detriment of their careers and relationships. Health and wellness, joy and love have come to seem ancillary compared to the desire for a perfect body. Even though eating disorders first became generally known about twenty-five years ago, they have burgeoned, worsened, become more difficult to treat and more fatal (50 percent of anorexics who do not respond to treatment die within ten years). Consider these statistics: Ten million Americans suffer from eating disorders. Seventy million people worldwide suffer from eating disorders. More than half of American women between the ages of eighteen and twenty-five would prefer to be run over by a truck or die young than be fat. More than two-thirds would rather be mean or stupid. Eating disorders have the highest mortality rate of any psychological disease. In *Perfect Girls, Starving Daughters*, Martin offers original research from the front lines of the eating disorders battlefield. Drawn from more than a hundred interviews with sufferers, psychologists, nutritionists, sociocultural experts, and others, her exposé reveals a new generation of "perfect girls" who are obsessive-compulsive, overachieving, and self-sacrificing in multiple -- and often dangerous -- new ways. Young women are "told over and over again," Martin notes, "that we can be anything. But in those affirmations, assurances, and assertions was a concealed pressure, an unintended message: You are special. You are worth something. But you need to be perfect to live up to that specialness." With its vivid and often heartbreaking personal stories, *Perfect Girls, Starving Daughters* has the power both to shock and to educate. It is a true call to action and cannot be missed.

"Even though I looked alive and vital, the hourglass measuring the aliveness of my soul was swiftly draining to the bottom. I was losing my battle to be myself. I was in my prime. My career was taking off; I was surrounded by loving friends and family. Yet it felt like time was running out." Dr. Robin L. Smith, noted psychologist, ordained minister, motivational speaker, and best-selling author of *Lies at the Altar*, seemed to have the perfect life, but underneath it all, she felt empty. In this powerful new work, Dr. Robin painstakingly chronicles a time when she felt at the end of her rope, unable to truly see herself or escape the unrelenting craving in her heart. Throughout her life, she had always focused on living up to everyone else's expectations, doing everything they asked—everything they recommended—in the hopes that by pleasing others she would find fulfillment and success. Instead she found herself spiritually and emotionally starved with a hungry soul begging for change. Through vivid descriptions of the symptoms of her hunger, the gnawing emptiness in her soul, and her courageous journey to discovering herself, Dr. Robin opens a window into her own experiences in order to provide insight into yours. With clarity and empathy she starts you on a path to uncovering the real you—the you that lays beneath all the doubt, superficiality, and life crises. Dr. Robin honestly bares her soul and shares her story—plus stories of other hungry souls including her friends, clients from her psychology practice, family, and celebrities—and in the process, teaches you to recognize, survive, embrace, and conquer your own hunger. She teaches you to step into your own story so you can listen to and learn from the wisdom within.

Why would a talented young woman enter into a torrid affair with hunger, drugs, sex, and death? Through five lengthy hospital stays, endless therapy, and the loss of family, friends, jobs, and all sense of what it means to be "normal," Marya Hornbacher lovingly embraced her anorexia and bulimia -- until a particularly horrifying bout with the disease in college put the romance of wasting away to rest forever. A vivid, honest, and emotionally wrenching memoir, *Wasted* is the story of one woman's travels to reality's darker side -- and her decision to find her way back on her own terms.

"Nothing less than astonishing..."—Booklist (starred review) From a renowned international journalist comes a galvanizing international bestseller about mankind's oldest, most persistent, and most brutal problem—world hunger. Yet we produce enough food to feed the entire human population one-and-a-half times over. So why is it that world hunger remains such a deadly problem? In this crucial and inspiring work, award-winning author Martín Caparrós travels the globe in search of an answer. His investigation brings him to Africa and the Indian subcontinent where he witnesses starvation first-hand; to Chicago where he documents the greed of corporate food distributors; and to Buenos Aires where he accompanies trash scavengers in search of something to eat. An international bestseller when it first appeared, this first-ever English language edition has been updated by Caparrós to consider whether conditions that have improved or worsened since the book's European publication. A unique eating-disorder memoir written by a mother and daughter. Unbeknownst to food critic Sheila Himmel-as she reviewed exotic cuisines from bistro to brasserie- her daughter, Lisa, was at home starving herself. Before Sheila fully grasped what was happening, her fourteen-year-old with a thirst for life and a palate for the flavors of Vietnam and Afghanistan was replaced by a weight-obsessed, antisocial, hundredpound nineteen-year-old. From anorexia to bulimia and back again-many times-the Himmels feared for Lisa's life as her disorder took its toll on her physical and emotional well-being. *Hungry* is the first memoir to connect eating disorders with a food-obsessed culture in a very personal way, following the stumbles, the heartbreaks, and even the funny moments as a mother-daughter relationship-and an entire family-struggles toward healing.

In the vein of An Unquiet Mind comes a storm of a memoir that will take you deep inside bipolar disorder and change everything you know. When Marya Hornbacher published her first book, Wasted: A Memoir of Anorexia and Bulimia, she did not yet have the piece of shattering knowledge that would finally make sense of the chaos of her life. At age twenty-four, Hornbacher was diagnosed with Type I rapid-cycle bipolar, the most severe form of bipolar disorder. In Madness, in her trademark wry and utterly self-revealing voice, Hornbacher tells her new story. Through scenes of astonishing visceral and emotional power, she takes us inside her own desperate attempts to counteract violently careening mood swings by self-starvation, substance abuse, numbing sex, and self-mutilation. How Hornbacher fights her way up from a madness that all but destroys her, and what it is like to live in a difficult and sometimes beautiful life and marriage—where bipolar always beckons—is at the center of this brave and heart-stopping memoir. Madness delivers the revelation that Hornbacher is not alone: millions of people in America today are struggling with a variety of disorders that may disguise their bipolar disease. And Hornbacher's fiercely self-aware portrait of her own bipolar as early as age four will powerfully change, too, the current debate on whether bipolar in children actually exists. New York Times “Humorous, articulate, and self-aware...A story that is almost impossible to put down.”— “With the same intimately revelatory and shocking emotional power that marked [Wasted], Hornbacher guides us through her labyrinth of psychological demons.”—Elle

In this inspiring and cautionary memoir, one of the world's top plus-size models relates her former life as a Size 00 model and her battles with eating disorders and delivers a universal message about body image, beauty, and self-confidence.

A Hunger Artist Franz Kafka - Kafka wrote "Hunger Artist" as he was starving to death. He suffered from a bad case of laryngeal tuberculosis that made eating too painful. As the condition worsened his throat closed and doctors had no way to feed him. He was 40 when he died."Hunger Artist" has a bitter irony feel to it. Like Metamorphosis, it deals with feelings of alienation, isolation and withdrawal. Of course with Kafka there is always the initiation of something extremely unusual, and that's no different here. Strangely as it may seem, as we are dealing with a man inside a cage, it's a spiritual freedom that reverberates through out the story. The artist is melancholic, not because he does not eat, but because he is continuously tempted to abandon his fasting and to accept the very food he tries to evade. He evaluates everything on deeper levels, like a psychologist mainlining his subconscious mind. He creates a tone that plays havoc with your thought process where he invites us to see art in a darker shade of gray, to consider the relationship between art and authenticity. The protagonist experiences the decline in appreciation of his craft, an individual marginalized by society at large. The short story explores themes such as art, isolation, asceticism, spiritual poverty, futility, personal failure and the corruption of human relationships. Kafka is thought to have been inspired to write his tale by a Giovanni Succi, a professional faster who amazed crowds across Europe around the turn of the century with his stoic refusal of food for as many as 40 days.

"A photographic collection exploring what the world eats featuring portraits of twenty-five families from twenty-one countries surrounded by a week's worth of food"—Provided by publisher. From the New York Times bestselling author of Bad Feminist: a searingly honest memoir of food, weight, self-image, and learning how to feed your hunger while taking care of yourself. "I ate and ate and ate in the hopes that if I made myself big, my body would be safe. I buried the girl I was because she ran into all kinds of trouble. I tried to erase every memory of her, but she is still there, somewhere. . . . I was trapped in my body, one that I barely recognized or understood, but at least I was safe." In her phenomenally popular essays and long-running Tumblr blog, Roxane Gay has written with intimacy and sensitivity about food and body, using her own emotional and psychological struggles as a means of exploring our shared anxieties over pleasure, consumption, appearance, and health. As a woman who describes her own body as "wildly undisciplined," Roxane understands the tension between desire and denial, between self-comfort and self-care. In Hunger, she explores her past—including the devastating act of violence that acted as a turning point in her young life—and brings readers along on her journey to understand and ultimately save herself. With the bracing candor, vulnerability, and power that have made her one of the most admired writers of her generation, Roxane explores what it means to learn to take care of yourself: how to feed your hungers for delicious and satisfying food, a smaller and safer body, and a body that can love and be loved—in a time when the bigger you are, the smaller your world becomes.

Seang Seng was born and raised in Cambodia, the Southeast Asian country Prince Sihanouk had coined an "Island of Peace." The Cambodian people knew only two natural seasons: the dry and the rainy. In the dry season, farmers celebrated the harvest. At the New Year, farmers and city dwellers alike brought rice and prepared foods to the temple to celebrate. During the rainy season, farmers prepared their fields and planted new crops with hopes for a bountiful future harvest. In the cities, students studied, moviegoers flocked to the popular cinemas, and sidewalk vendors hawked all manner of plentiful food and drink. But once the barbaric Khmer Rouge seized power in April 1975, they forcibly evacuated the cities, including the capital of Phnom Penh, and fourth-year medical student Seang Seng found himself and his family of 24 persons driven into a countryside of forced labor camps that would come to be known as the "Killing Fields."

Who develops which eating disorder and why? When do eating disorders begin and what fuels them? In *Hunger for Connection*, psychoanalyst and eating-disorder specialist Alitta Kullman expands on the "body/mind" personality organization she calls the "perseverant personality," illustrating how food and thought are linked from infancy, and for some, can become the primary source of nurturance and thought-processing for a lifetime—leading to what we call an eating disorder. Writing in a highly accessible style, Kullman brings humor and gentleness to her interactions with patients, offering health professionals and mainstream readers alike an essential guide to understanding and/or working with cyclical eating disorders of all types. A food critic chronicles four years spent traveling with René Redzepi, the renowned chef of Noma, in search of the most tantalizing flavors the world has to offer. "If you want to understand modern restaurant culture, you need to read this book."--Ruth Reichl, author of *Save Me the Plums* *Hungry* is a book about not only the hunger for food, but for risk, for reinvention, for creative breakthroughs, and for connection. Feeling stuck in his work and home life, writer Jeff Gordinier happened into a fateful meeting with Danish chef René Redzepi, whose restaurant, Noma, has been called the best in the world. A restless perfectionist, Redzepi was at the top of his game but was looking to tear it all down, to shutter his restaurant and set out for new places, flavors, and recipes. This is the story of the subsequent four years of globe-trotting culinary adventure, with Gordinier joining Redzepi as his Sancho Panza. In the jungle of the Yucatán peninsula, Redzepi and his comrades go off-road in search of the perfect taco. In Sydney, they forage for sea rocket and sandpaper figs in suburban parks and on surf-lashed beaches. On a boat in the Arctic Circle, a lone fisherman guides them to what may or may not be his secret cache of the world's finest sea urchins. And back in Copenhagen, the quiet canal-lined city where Redzepi started it all, he plans the resurrection of his restaurant on the unlikely site of a garbage-filled lot. Along the way, readers meet Redzepi's merry band of friends and collaborators, including acclaimed chefs such as Danny Bowien, Kylie Kwong, Rosio Sánchez, David Chang, and Enrique Olvera. *Hungry* is a memoir, a travelogue, a portrait of a chef, and a chronicle of the moment when daredevil cooking became the most exciting and groundbreaking form of artistry. Praise for *Hungry* "In *Hungry*, Gordinier invokes such playful and lush prose that the scents of mole, chiles and even lingonberry juice waft off the page."--Time "This wonderful book is really about the adventures of two men: a great chef and a great journalist. *Hungry* is a feast for the senses, filled with complex passion and joy, bursting with life. Not only did Jeff Gordinier make me want to jump on the next flight (to Mexico, Copenhagen, Sydney) in search of the perfect meal, but he also reminded me to stop and savor the ride."--Dani Shapiro, author of *Inheritance*
