Have you ever felt too progressive for conservatives, but too conservative for progressives? The instant New York Times, Wall Street Journal, and USA Today Bestseller! Ryan Holiday's bestselling trilogy—The Obstacle Is the Way, Ego is the Enemy, and Stillness is the Key—captivated professional athletes, CEOs, politicians, and entrepreneurs and helped bring Stoicism to millions of readers. Now, in the first book of an exciting new series on the cardinal virtues of ancient philosophy, Holiday explores the most foundational virtue of all: Courage. Almost every religion, spiritual practice, philosophy and person grapples with fear. The most repeated phrase in the Bible is "Be not afraid." The ancient Greeks spoke of phobos, panic and terror. It is natural to feel fear, the Stoics believed, but it cannot rule you. Courage, then, is the ability to rise above fear, to do what's right, to do what's needed, to do what is true. And so it rests at the heart of the works of Marcus Aurelius, Aristotle, and CS Lewis, alongside temperance, justice, and wisdom. In *Courage Is Calling*, Ryan Holiday breaks down the elements of fear, an expression of cowardice, the elements of courage, an expression of bravery, and lastly, the elements of heroism, an expression of valor. Through engaging stories about historic and contemporary leaders, including Charles De Gaulle, Florence Nightingale, and Dr. Martin Luther King Jr., Holiday shows you how to conquer fear and practice courage in your daily life. You'll also delve deep into the moral dilemmas and courageous acts of lesser-known, but equally as important, figures from ancient and modern history, such as Helvidius Priscus, a Roman Senator who stood his ground against emperor Vespasian, even in the face of death; Frank Serpico, a former New York City Police Department Detective who exposed police corruption; and Frederick Douglass and a slave named Nelly, whose fierce resistance against her captors inspired his own crusade to end slavery. In a world in which fear runs rampant—when people would rather stand on the sidelines than speak out against injustice, go along with convention than bet on themselves, and turn a blind eye to the ugly realities of modern life—we need courage more than ever. We need the courage of whistleblowers and risk takers. We need the courage of activists and adventurers. We need the courage of writers who speak the truth—and the courage of leaders to listen. We need you to step into the arena and fight.

Leadership Principles from a Renowned Agent of Change Cultures and organizations do not change without strong leadership. While many leadership books focus on management or administration, the central focus of *The Conviction to Lead* is on changing minds. Dr. Mohler was the driving force behind the transformation of Southern Seminary from a liberal institution of waning influence to a thriving evangelical seminary at the heart of the Southern Baptist Convention. Since then he has been one of the most prominent voices in evangelicalism, fighting for Christian principles and challenging secular culture. Using his own experiences and examples from history, Dr. Mohler demonstrates that real leadership is a transferring of conviction to others, affecting their actions, motivations, intuition, and commitment. This practical guide walks the reader through what a leader needs to know, do, and be in order to affect change.

From the perspective of young lawyers in three key New Deal agencies, this book traces the path of crucial constitutional test cases during the years from 1933 to 1937.

Involvement of community partners in the structure and design of services is largely accepted in principle, but its practice is heavily contested. This book argues that the co-production of research is one of the best ways to involve community partners. As well as having intrinsic value in and of itself, research embeds a culture of learning, co-production and of valuing research within organizations. It also creates a mechanism for developing evidence for, monitoring and evaluating subsequent ideas and initiatives that arise from other co-production initiatives. The book makes a case for research to be a synthesis of participatory research, critical pedagogy, peer research and community organizing. It develops a model called Participatory Pedagogic Impact Research (PPIR). Participatory research is often criticized for not having the impact it promises. PPPIR ensures that the issues chosen, and the recommendations developed, serve the

mutual self-interest of stakeholders, are realistic and realizable. At the same time this approach pushes the balance of power towards the oppressed using methods of dissemination that hold decision makers to account and create real change. PPIR also develops a robust method for creatively identifying issues, methods and analytic frameworks. Its third section details case studies across Europe and the United States of PPIR in action with professional researchers' and community partners' reflections on these experiences. This book gives a unique articulation of what makes for genuinely critical reflective spaces, something underdeveloped in the literature. It should be considered essential reading for both participatory research academics and those involved in health and social care services in the planning, commissioning and delivery of services.

On the occasion of his seventieth birthday, the renowned scholar Marcus J. Borg shares how he formed his bedrock religious beliefs, contending that Christians in America are at their best when they focus on hope and transformation and so shows how we can return to what really matters most. The result is a manifesto for all progressive Christians who seek the best path for following Jesus today. With each chapter embodying a distinct conviction, Borg writes provocatively and compellingly on the beliefs that can deeply ground us and guide us, such as: God is real and a mystery; salvation is more about this life than an afterlife; the Bible can be true without being literally true; Jesus's death on the cross matters—but not because he paid for our sins; God is passionate about justice and the poor; and to love God is to love like God. Borg calls all American Christians to reject divisiveness and exclusivity and create communities that celebrate joy, possibility, and renewal. Throughout, he reflects on what matters most, bringing to earth the kingdom of God Jesus talked about and transforming our relationships with one another. Rich in wisdom and insight, *Convictions* is sure to become a classic of contemporary Christianity.

The right to a fair trial is often held as a central constitutional protection. It nevertheless remains unclear what precisely should count as a 'fair' trial and who should decide verdicts. This already difficult issue has become even more important given a number of proposed reforms of the trial, especially for defendants charged with terrorism offences. This collection, *The Right to a Fair Trial*, is the first to publish in one place the most influential work in the field on the following topics: including the right to jury trial; lay participation in trials; jury nullification; trial reform; the civil jury trial; and the more recent issue of terrorism trials. The collection should help inform both scholars and students of both the importance and complexity of the right to a fair trial, as well as shed light on how the trial might be further improved.

Today, many Christians, concerned and challenged by contemporary trends in society and religion, are bewildered and perhaps tempted to leave the Church and manage on their own. *Courage and Conviction* is addressed to discerning adult Christians who seek something between high theology and pious platitudes. Ranging from consideration of Christian identity, via the challenge of faith-filled living in a world of diversity, to suggestions for mature discipleship today, these reflections—building on Scripture studies, cultural anthropology, and life experience—are offered by way of support, encouragement, and perhaps further enlightenment.

'I first met Robert Allerton in prison, where he was captive and I was not... He was a powerful broad-shouldered Cockney [who] had spent his childhood in poverty and much of his manhood in prison; and he had a long record of violent crime.' Tony Parker, from his Introduction Tony Parker's first book *The Courage of His Convictions* (1962), constructed out of his candid and illuminating dialogues with career criminal Robert Allerton (credited as co-author), is a stunning work that displays all the skills and virtues Parker would bring to his subsequent career as an 'oral historian' of the lives of society's marginal figures. 'This intimate autobiography is a revelation - it provides the first psychological insight into the mentality of that frightening, mysterious and pathetic product of our society, the professional criminal.'

Arthur Koestler

Reject our society's liberal bias against conservative women and learn how traditional principles will secure a better future for us all with this inspiring guide from a political powerhouse. *The Mind of a Conservative Woman* challenges women to improve their place in life and open doors for themselves and the next generation through the courage of their convictions. Senator Blackburn expounds upon why beliefs labeled as "traditional" have common ground and can improve all of society, such as: Protecting the next generation, the family, and the freedom of faith and values, Supporting a free market that rewards women who apply their talents and rise to great heights, Respecting the institutions in our nation to make change from the inside, Securing an effective government that will not overreach, and Honoring and respecting those who hold differing opinions. Though it is politically liberal women who receive the attention of left-leaning media and universities, it is conservatism that guarantees what most

women hold dear. Blackburn addresses the frustrations of working women and the false perceptions of women presented by the media in general. Her maxim "Leave Things in Better Shape Than You Found Them" will challenge you to improve your place in life and create opportunities you never dreamed possible for yourself and those around you.

Matriculate to Your Perfect Degree Course is a wakeup call for the many who coast through life to come alive to their true potential and build their true platform for success; The book will help harness the value of education in more meaningful ways than mere certification - a situation that has become an unfortunate national plague in our time. Also, In the Matriculate To Your Perfect Degree Course You will learn: How to find your purpose in life How to find the right education How to find the right environment for your education Ultimately the inspiration you need to achieve your dreams and goals Doctors at War is a candid account of a trauma surgical team based, for a tour of duty, at a field hospital in Helmand, Afghanistan. Mark de Rond tells of the highs and lows of surgical life in hard-hitting detail, bringing to life a morally ambiguous world in which good people face impossible choices and in which routines designed to normalize experience have the unintended effect of highlighting war's absurdity. With stories that are at once comical and tragic, de Rond captures the surreal experience of being a doctor at war. He lifts the cover on a world rarely ever seen, let alone written about, and provides a poignant counterpoint to the archetypical, adrenaline-packed, macho tale of what it is like to go to war. Here the crude and visceral coexist with the tender and affectionate. The author tells of well-meaning soldiers at hospital reception, there to deliver a pair of legs in the belief that these can be reattached to their comrade, now in mid-surgery; of midsummer Christmas parties and pancake breakfasts and late-night sauna sessions; of interpersonal rivalries and banter; of caring too little or too much; of tenderness and compassion fatigue; of hell and redemption; of heroism and of playing God. While many good firsthand accounts of war by frontline soldiers exist, this is one of the first books ever to bring to life the experience of the surgical teams tasked with mending what war destroys.

Do you have courage of faith? If you were tied to a stake with kindling and firewood laid up against you and a priest of a foreign religion stood before you with a can of gas and a match and said, "For one last time, admit the error of your way, turn to the true faith, and live!" What would you do? Are you willing to take a stand for what you believe to be true? The US is what it is today because of men and women from our past who had the courage to do just that. Now, at a time when political correctness often supersedes personal conviction, we need to ask ourselves that question. Through twelve short stories in two volumes, The Courage of Your Faith tells of people who were faced with the choice-follow their convictions or take the easy way out. Our Baptist history is replete with such points of contention that are still debated today. These stories complement a Bible Study of that same name that can be downloaded from the book's web site.

On the Swiss border with Austria in 1938, a police captain refuses to enforce a law barring Jewish refugees from entering his country. In the Balkans half a century later, a Serb from the war-blasted city of Vukovar defies his superiors in order to save the lives of Croats. At the height of the Second Intifada, a member of Israel's most elite military unit informs his commander he doesn't want to serve in the occupied territories. Fifty years after Hannah Arendt examined the dynamics of conformity in her seminal account of the Eichmann trial, Beautiful Souls explores the flipside of the banality of evil, mapping out what impels ordinary people to defy the sway of authority and convention. Through the dramatic stories of unlikely resisters who feel the flicker of conscience when thrust into morally compromising situations, Eyal Press shows that the boldest acts of dissent are often carried out not by radicals seeking to overthrow the system but by true believers who cling with unusual fierceness to their convictions. Drawing on groundbreaking research by moral psychologists and neuroscientists, Beautiful Souls culminates with the story of a financial industry whistleblower who loses her job after refusing to sell a toxic product she rightly suspects is being misleadingly advertised. At a time of economic calamity and political unrest, this deeply reported work of narrative journalism examines the choices and dilemmas we all face when our principles collide with the loyalties we harbor and the duties we are expected to fulfill.

A former federal prosecutor who served on the justice department's Enron task force traces his contributions to high-profile cases involving organized crime leaders, drug

kingpins, and other dangerous criminals, in a career marked by ethical conflicts and his witness to flaws in the nation's legal system.

The book opens with a prologue set in mid-sixties London, where Joel Litvinoff, an American civil rights lawyer, meets a young Englishwoman, Audrey. After a brief and apparently casual affair, she decides to go to the United States and marry him. The main narrative then commences in New York in 2002. Joel is 72 and approaching the end of a long and illustrious career as an activist lawyer. He and Audrey live in Greenwich Village and have three adult children: two daughters, Rosa and Karla, and an adopted son, Lenny. Audrey is now an acid-tongued, domineering woman in late middle age who fiercely defends, but never questions, the political stance that has shaped her life. Her most tender feelings appear to be directed towards Lenny, a frequent drug user who is incapable of personal responsibility. Karla, the neglected and under-appreciated oldest child, is a social worker who is married, not very happily, to Mike. They have been trying unsuccessfully to start a family. Rosa works with disadvantaged young girls. She is becoming increasingly interested in Judaism, a faith rejected along with all others by her Jewish parents. For this she is much derided by Audrey. Joel suffers a stroke while in court and is in a coma for most of the time span covered by the book. Audrey is convinced he is not getting proper care in the hospital and creates difficulties for its medical staff. During this time of stress, Karla's unhappiness with her marriage rises to the surface. She begins an affair with Khaled, originally from Egypt, who runs a newspaper store at the hospital where they both work. Rosa immerses herself in the study of Orthodox Judaism and, though she finds many of its teachings difficult to accept, though she perseveres. A stranger, Berenice Mason, introduces herself to Audrey, claiming that her son is Joel's illegitimate child. Though Audrey initially dismisses her with contempt, it emerges that her story is true and that Berenice has been receiving regular financial support from Joel. Lenny is persuaded by Audrey's friend Jean to go to her country home in Pennsylvania for a month in order to get off drugs. He makes great progress there and, when Audrey visits, he proposes settling in Pennsylvania permanently. Appalled by the prospect of losing him, Audrey does her best to discourage the idea. Rosa abandons, and then takes up again, her studies in Orthodox Judaism deciding finally that she must pursue her religious intuitions. Joel dies without regaining consciousness. At his funeral, which is attended by thousands, Audrey gives a eulogy in which she celebrates her 40-year marriage to her husband and makes a public acknowledgment of Berenice and her son. At the reception afterwards, Karla makes a last-minute, momentous decision regarding her own marriage.

Argues that the incompatible views of the Republicans and Democrats have turned Congress into a dysfunctional body and the ideological differences may prove catastrophic to the country unless meaningful, bipartisan compromises can be reached.
