By the flip of a coin, Thomas Dionysius Clark became intertwined in the vast history of Kentucky. In 1928, Clark received scholarships to both the University of Cincinnati and to the University of Kentucky. Kentucky won the coin toss and the claim to one of the South's eminent historians. In 1990, when the Kentucky General Assembly honored Clark by declaring him Kentucky's Historian Laureate for life, Governor Brereton Jones described Clark as "Kentucky's greatest treasure." Historian, advocate, educator, preservationist, publisher, writer, mentor, friend, Kentuckian -- Dr. Clark has filled all these roles and more. Thomas D. Clark of Kentucky is a celebration of his life and career by just a few of those who have felt his influence and shared his enthusiasm for his adopted home state of Kentucky.

An intimate biography of the avant-garde poet and spiritual seeker who abandoned his career to join the circus and live among fishermen in Greece. Robert Lax inspired Thomas Merton, Jack Kerouac, William Maxwell and many others with his quest to live a true life as both an artist and a spiritual seeker. Known in Europe as a avant-garde poet, Lax worked at The New Yorker, wrote Hollywood screenplays and edited a Paris literary journal—when he wasn't studying philosophy, serving the poor in Harlem or living in a sanctuary high in the French Alps. Lax called his approach to life pure act: a way of living in the moment that was both spontaneous and practiced, God-inspired and self-chosen. By devoting himself to simplicity, poverty and prayer, he expanded his capacity for peace, joy and love while producing distinctive poetry of such stark beauty critics called him "one of America's greatest experimental poets" and "one of the new 'saints' of the avant-garde." Biographer Michael N. McGregor met Lax in Greece when he was a young seeker himself. He continued to visit him regularly over fifteen years. Pure Act is a tale of adventure, an exploration of friendship, an anthology of wisdom, and a testament to the liberating power of living an uncommon life. This biography draws on previously unavailable archival material and is attuned to the historical and cultural contexts in which Day lived and worked.

From 1950 to 1980, activists in the black freedom and women's liberation movements mounted significant campaigns in response to the injustices of rape. These activists challenged the dominant legal and social discourses of the day and redefined the political agenda on sexual violence for over three decades. How activists framed sexual violence--as either racial injustice, gender injustice, or both--was based in their respective frameworks of oppression. The dominant discourse of the black freedom movement constructed rape primarily as the product of racism and white supremacy, whereas the dominant discourse of women's liberation constructed rape as the result of sexism and male supremacy. In The Injustices of Rape, Catherine O. Jacquet is the first to examine these two movement responses together, explaining when and why they were in conflict, when and why they converged, and how activists both upheld and challenged them. Throughout, she uses the history of antirape activism to reveal the difficulty of challenging deeply ingrained racist and sexist ideologies, the unevenness of reform, and the necessity of an intersectional analysis to combat social injustice. "That's a crazy book " Albert Einstein said in the early 1950s, when asked his impression of Alfred Korzybski's 1933 work "Science and Sanity." More than a decade later, Richard Feynman found Korzybski's notion of "time-binding" crucial for

answering the question "What is science?." Feynman didn't know that it was Alfred Korzybski who had coined the term "time-binding" in his first, 1921, book "Manhood of Humanity" to label what he considered the defining characteristic of humans: the potential of each generation to start where the former leaves off and thus to accumulate useful knowledge at an ever-accelerating rate. In the exact sciences and technology, time-binding seems to work reasonably well. In the rest of human life, not so much. Korzybski, a patriotic Polish nobleman and an engineer who had lived under Tsarist tyranny and had seen the horrors of World War I on the Eastern Front before coming to the United States, realized the results of the disparity between rapid but narrow scientific-technological advancement and broader but snail-paced ethical-social development: a seemingly endless cycle of crises, revolutions and wars. Seeking a way out, he studied a broad range of disciplines from physics to psychiatry-fields that others felt had little to do with each other-and discovered factors of sanity in physico-mathematical methods. Comparing the ways of thinking that scientists and mathematicians exemplify when working at their best and the ways of thinking that they and other people unsanely or insanely tend to use the rest of the time, Korzybski linked science and sanity in a new world outlook with an accompanying methodology (labeled 'general semantics')-simple enough to teach children. Traces of Korzybski's pioneering work can be found today in a variety of fields such as cognitive science, cognitive-behavioral psychotherapy, communication, media ecology, medicine, organizational development, philosophical counseling and philosophy, etc. In spite of this, Korzybski's radically interdisciplinary work remains relatively unassimilated into standard academic fields and hard to accurately fit into familiar popular categories. Thus, Korzybski, who originated the saying "The map is not the territory," remains a relatively neglected and misunderstood figure, shrouded in controversy: some people have considered him a genius while others have called him a crank. Drawing on an array of sources including Korzybski's personal correspondence, notes, scrapbooks, and both published and unpublished writings, as well as personal discussions and interviews with some of Korzybski's closest co-workers, Bruce I. Kodish situates Korzybski's contributions in the context of his times and provides surprising insights into his work as a whole. Kodish's clear prose provides a compellingly readable narrative of Korzybski's very busy, sometimes too busy, exciting and exhausting life while making accessible some of the most complex areas of Korzybski's thought. For years to come, this outstanding biography will remain the standard work on Alfred Korzybski's extraordinarily adventurous and significant life and work.

"I wasn't sure I liked the sound of it. Even my vivid imagination could hardly fathom a place as tight, or dense, or narrow as Shanghai." It's April 1939 and, with their lives in Berlin and Vienna under threat, Esther and Kitty – two very different women – are forced to make the same brutal choice. Flee Europe, or face the ghetto, incarceration, death. Shanghai, they've heard, Shanghai is a haven – and so they secure passage to the other side of the world. What they find is a city of extremes – wealth, poverty, decadence and disease – and of deep political instability. Kitty has been lured there with promises of luxury, love, marriage – but when her Russian fiancé reveals his hand she's left to scratch a vulnerable living in Shanghai's nightclubs and dark corners. Meanwhile, Esther and her little girl take shelter in a house of widows until the protection of Aaron, Esther's hot-headed former lover, offers new hope of survival. Then the Japanese military enters the fray and violence mounts. "Mile zero" marks the location of Key West -- the island that defines the end of the American road, the cultural junction where Anglo-Saxon, Latin, and Afro worlds collide. On this island, with its cruel legacy of slave trade and Latin revolution, and its turbulent present of marijuana millionaires, threadbare illegal immigrants, and hard-luck treasure hunters, lives St. Cloud, an American expatriated in his own country, a fugitive from the unresolved anguish of his generation. Chronicling St. Cloud's dangerous reawakening, *Mile Zero* illuminates the inward and outward tumult of our time in a huge, startling, and profoundly felt novel.

More of Mason Currey's irresistible Daily Rituals, this time exploring the daily obstacles and rituals of women who are artists--painters, composers, sculptors, scientists, filmmakers, and performers. We see how these brilliant minds get to work, the choices they have to make: rebuffing convention, stealing (or secreting away) time from the pull of husbands, wives, children, obligations, in order to create their creations. From those who are the masters of their craft (Eudora Welty, Lynn Fontanne, Penelope Fitzgerald, Marie Curie) to those who were recognized in a burst of acclaim (Lorraine Hansberry, Zadie Smith) . . . from Clara Schumann and Shirley Jackson, carving out small amounts of time from family life, to Isadora Duncan and Agnes Martin, rejecting the demands of domesticity, Currey shows us the large and small (and abiding) choices these women made--and continue to make--for their art: Isak Dinesen, "I promised the Devil my soul, and in return he promised me that everything I was going to experience would be turned into tales," Dinesen subsisting on oysters and Champagne but also amphetamines, which gave her the overdrive she required . . . And the rituals (daily and otherwise) that guide these artists: Isabel Allende starting a new book only on January 8th . . . Hilary Mantel taking a shower to combat writers' block ("I am the cleanest person I know") . . . Tallulah Bankhead coping with her three phobias (hating to go to bed, hating to get up, and hating to be alone), which, could she "mute them," would make her life "as slick as a sonnet, but as dull as ditch water" . . . Lillian Hellman chain-smoking three packs of cigarettes and drinking twenty cups of coffee a day--and, after milking the cow and cleaning the barn, writing out of "elation, depression, hope" ("That is the exact order. Hope sets in toward nightfall. That's when you tell yourself that you're going to be better the next time, so help you God.") . . . Diane Arbus, doing what "gnaws at" her . . . Colette, locked in her writing room by her first husband, Henry Gauthier-Villars (nom de plume: Willy) and not being "let out" until completing her daily quota (she wrote five pages a day and threw away the fifth). Colette later said, "A prison is one of the best workshops" . . . Jessye Norman disdaining routines or rituals of any kind, seeing them as "a crutch" . . . and Octavia Butler writing every day no matter what ("screw inspiration"). Germaine de Staël . . . Elizabeth Barrett Browning . . . George Eliot . . . Edith Wharton . . . Virginia Woolf . . . Edna Ferber . . . Doris Lessing . . . Pina Bausch . . . Frida Kahlo . . . Marguerite Duras . . . Helen Frankenthaler . . . Patti Smith, and 131 more--on their daily routines, superstitions, fears, eating (and drinking) habits, and other finely (and not so finely) calibrated rituals that help summon up willpower and self-discipline, keeping themselves afloat with optimism and fight, as they create (and avoid creating) their creations.

This is the story of the life and work of Alfred Peet, the man behind the iconic West Coast coffee brand Peet's Coffee, and how he led the revolution of specialty coffee in the United States

When Henry Roth published his debut novel *Call It Sleep* in 1934, it was greeted with considerable critical acclaim though, in those troubled times, lackluster sales. Only with its paperback publication thirty years later did this novel receive the recognition it deserves---and still enjoys. Having sold-to-date millions of copies worldwide, *Call It Sleep* is the magnificent story of David Schearl, the "dangerously imaginative" child coming of age in the slums of New York.

"Wait. Patient. Now. Not long. Good girl. Wait here. Brave girl. Back in a jiffy. Think of it as a vacation." Big Bend, population 500. South Dakota, 1988. Eight-year-old Tiny Mite lives in a ramshackle farmhouse next to her grandfather's crashed airplane and the pine tree where she trains as a spy. Goddamn is her favourite word. Taking pictures with a homemade camera is her new big thing. She lives with Bee, her apocalypse-obsessed grandmother and Luvie, her hard-drinking great-aunt. And then there's her mother, Velvet – beautiful, heartbroken, desperate, impulsive. One night, Tiny Mite goes to the basement and hears a cry, but it's not what she imagines and nothing will ever be the same. Six years later, Clea won't let anyone call her Tiny Mite anymore. Luvie is sober and Bee's health is failing. Velvet has been gone for years, and nobody except Bee will even mention her name. Alone, angry and dressed in her grandfather's old hunting clothes, Clea mopes through ditches and fields taking photographs until she hatches a plan with another loner, a boy with an unspeakable past. This is a story of mothers and daughters. Of people tied by blood and home. Of moments captured and lifetimes lost. And of things never quite turning out as expected. "Not The Only Sky is not only beautifully and poignantly written, but also provides fascinating insights into life in rural America. Alyssa Warren captures perfectly the profound vulnerability of her characters, particularly that of Tiny Mite and her mother Velvet. Tiny Mite's voice is highly original, as she gives meaning to a life and childhood experiences that might otherwise be impossible to make sense of." – JULIET CONLIN, author of *The Uncommon Life of Alfred Warner in Six Days*

Relive the Clashes that Shaped Colonial America Today Americans remember 1776 as the beginning of an era. A nation was born, commencing a story that continues to this day and that we ourselves are a part of. But the War of Independence also marked the end of another era—one in which many nations, Native American and European, had struggled for control of a vast and formidable wilderness. That saga, though separated from us now by a gulf of time that makes it seem strange and even alien, was the history out of which our own emerged. This book returns to that long-ago age, traveling through land that now forms part of the United States but that once knew a reality in which the clash between America's first peoples and the newcomers from Europe was still new. Focusing on events that are all but forgotten today, author Cormac O'Brien's masterful storytelling reveals how actors as diverse as Spanish conquistadores, Puritan ministers, Amerindian sachems, mercenary soldiers, and ordinary farmers traded and clashed across a landscape of constant, often violent, change—and how these dramatic moments, though largely lost to

memory, helped to shape the very world around us. From the founding of the first permanent European settlement in North America (1565) to the bloody chaos of the British frontier in Pontiac's War (1763), this vividly written narrative spans the two centuries of American history before the Revolutionary War. These lesser-known conflicts of the past are brought brilliantly to life, showing us a world of heroism, brutality, and tenacity—and also showing us how deep the roots of our own time truly run. Illustrated with more than 100 archival images.

Uncommon Life by Timothy Goodyer [-----]

A black southern doctor offers a gripping memoir of his childhood in Alabama, his efforts to overcome racism in the white medical community, his participation in the civil rights movement and his problems with the Medicaid program and state medical authorities.

In a personal memoir, the author describes her relationships with the two men closest to her--her father and his brother, Joseph, a charismatic pastor with whom she lived after her parents emigrated from Haiti to the United States.

This book proposes answers to the question of why parks are failing their mandate to be preserved undiminished for future generations. Those answers are deeply embedded in one word: belief. The book provides a practical guide for preparing park managers for a new era where the beliefs that created parks are matched by the beliefs that steward them - an era where promises made to unborn generations are matters of honor, not to be dismissed by the limits of science, the reality of budgets, or the inconvenience of revising management models. The book offers a new way to view parks, as essential public services and as social assets rather than natural resources. The book has 19 chapters and a subject index.

It's said if you want to succeed, watch successful people and do what they do. Simply Irresistible is a humorous manual of case studies that show how the greatest sirens of history did what they did and got what they wanted, nearly all the time. Our role models-many of whom are still weaving their charms today- include Eva Peron, Greta Garbo, Coco Chanel, Nigella Lawson, Angelina Jolie, Edith Piaf, Lucretia Borgia, Anne Boleyn, Mata Hari, and Jacqueline Kennedy Onassis. Simply Irresistible gives practical, sexy, and sometimes downright outrageous advice on modern seduction. It exalts the siren archetypes of the Companion, Competitor, Goddess, Mother, and Sex Kitten. The cheeky histories of the iconic real-life women are paired with a fun array of quizzes, quotes, photos, tongue-in-cheek captions, and personal stories of triumph and tragedy. (Mata Hari and Anne Boleyn were, after all, both executed.) The wisdom of these famous sirens is fleshed out with the contributions of everyday, lesser known charismatic women. The conclusion? All women have an inner siren-the ability to bring men to their knees-just waiting to come out. Now they'll know how.

Some colds are like mice, timid and annoying; others like dragons, accompanied by body aches and deep misery. In AH-CHOO!, Jennifer Ackerman explains what, exactly, a cold is, how it works, and whether it's really possible to "fight one off." Scientists call this the Golden Age of the Common Cold because Americans suffer up to a billion colds each year, resulting in 40 million days of missed work and school and 100 million doctor visits. They've also learned over the past decade much more about what cold viruses are, what they do to the human body, and how symptoms can be addressed. In this ode to the odious cold, Ackerman sifts through the chatter about treatments-what works, what doesn't, and what can't hurt. She dispels myths, such as susceptibility to colds reflects a weakened immune system. And she tracks current research, including work at the University of Virginia at Charlottesville, a world-renowned center of cold research studies, where the search for a cure continues.

A biography of the combative man whose genius and force of will created modern capitalism, documenting how Vanderbilt helped launch the transportation revolution, propel the Gold Rush, reshape Manhattan, and invent the modern corporation.

A Best Book of the Summer: USA Today, Town & Country, The Philadelphia Inquirer, BuzzFeed, Real Simple, The Millions, and more. "A virtuosic, singular and very funny portrait of a woman seeking sanity and purpose in a world gone mad." --The New York Times Book Review "Riddled with insights into aging, womanhood, and discontent, Wayward is as elegant as it is raw, and almost as funny as it is sad." --Philadelphia Inquirer "A comic, vital new novel" --The New Yorker A "furious and addictive new novel" (The New York Times) about mothers and daughters, and one woman's midlife reckoning as she flees her suburban life. On the heels of the election of 2016, Samantha Raymond's life begins to come apart: her mother is ill, her teenage daughter is increasingly remote, and at fifty-two she finds herself staring into "the Mids"--that hour of supreme wakefulness between three and four in the morning in which women of a certain age suddenly find themselves contemplating motherhood, mortality, and, in this case, the state of our unraveling nation. When she falls in love with a beautiful, decrepit house in a hardscrabble neighborhood in Syracuse, she buys it on a whim and flees her suburban life--and her family--as she grapples with how to be a wife, a mother, and a daughter, in a country that is coming apart at the seams. Dana Spiotta's Wayward is a stunning novel about aging, about the female body, and about female complexity in contemporary America. Probing and provocative, brainy and sensual, it is a testament to our weird times, to reforms and resistance and utopian wishes, and to the beauty of ruins.

I think my father's rage at the trenches took me over, when I was very young, and has never left me. Do children feel their parents' emotions? Yes, we do, and it is a legacy I could have done without. What is the use of it? It is as if that old war is in my own memory, my own consciousness. In this extraordinary book, the 2007 Nobel Laureate Doris Lessing explores the lives of her parents, each irrevocably damaged by the Great War. Her father wanted the simple life of an English farmer, but shrapnel almost killed him in the trenches, and thereafter he had to wear a wooden leg. Her mother, Emily, spent the war nursing the wounded in the Royal Free Hospital after her great love, a doctor, drowned in the Channel. In the fictional first half of Alfred and Emily, Doris Lessing imagines the happier lives her parents might have made for themselves had there been no war; a story that begins with their meeting at a village cricket match outside Colchester. This is followed by a piercing examination of their relationship as it actually was in the shadow of the Great War, of the family's move to Africa, and of the impact of her parents' marriage on a young woman growing up in a strange land. "Here I still am," says Doris Lessing, "trying to get out from under that monstrous legacy, trying to get free." Triumphant, with the publication of Alfred and Emily, she has done just that.

American culture that its story deserves to be told, not in a dry, academic tome but through the tale of a colorful, multifaceted family. Since 1638, the Browns of Rhode Island have provided community leaders in one of the nations most idiosyncratic states. In the 18th century, they excelled at maritime commerce, were pioneers of the American industrial revolution, and adorned their hometown of Providence with public buildings, churches, and a university. In the 19th century, they pioneered the modern notion that universities can be forces for social good. And, in the 20th century, they sought to transform the human experience through great art and architecture. Over three hundred years, the Browns also wrestled with societys toughest issues—slavery, immigration, child labor, the dispossessed—and with their own internal family tensions. Author Sylvia Brown tells the story of the ten generations of Browns that came before her with warmth and lucidity. Today, in an era of wealth creation and philanthropic innovation not seen since the Gilded Age, *Grappling with Legacy* provides fascinating insights into a unique aspect of Americas heritage.

A massively detailed, illustrated biography of Emily Dickinson.

London, 1920. Elliot Taverley is an ambitious young psychoanalyst specialising in the new and controversial field of handwriting analysis. When he receives a visit from a man who seems to change personality when he copies others handwriting, Elliot is intrigued and soon becomes obsessed with the man and his mysterious disorder. Spiralling into an increasingly bizarre cat-and-mouse chase and with his mind collapsing, Elliot is forced to confront his difficult childhood and the horrors of war in Arctic Russia in a desperate search for the truth. *The Fractured Man* is one of the most explosive debuts of the year—a psychological thriller that takes us through a war-ravaged Europe and the dark minds that inhabit it to a shocking conclusion.

Alfred Busi lives alone in his villa overlooking the waves. Famed in his tiny Mediterranean town for his music, he is mourning the recent death of his wife and quietly living out his days. Then one night, Busi is viciously attacked by an intruder in his own courtyard—bitten and scratched. He insists his assailant was neither man nor animal. Soon, Busi's account of what happened is being embellished to fan the flames of old rumor—of an ancient race of people living in the surrounding forest. It is also used to spark new controversy, inspiring claims that something must finally be done about the town's poor, whose numbers have been growing. In trademark crystalline prose, Jim Crace portrays a man taking stock of his life and looking into an uncertain future, while bearing witness to a community in the throes of great change.

In *Dead Languages* by David Shields, Jeremy Zorn's mother tries unsuccessfully to coax him into saying "Philadelphia," and his life becomes framed by his unwieldy attempts at articulation. Through family rituals with his word-obsessed parents and sister, failed first love, an ill-fated run for class president, as the only Jewish boy on an otherwise all-black basketball team, all of the passages of Jeremy's life are marked in some way by his stutter and his wildly off-the-mark attempts at a cure. It is only when he enters college and learns his strong-willed mother is dying that he realizes all languages, when used as hiding places for the heart, are dead ones.
